

**Role:**

Instructor

Objectives:

In this scenario, you will:

- Navigate to the **Assess Wikis** page
- View overall student participation
- View participation statistics for a student
- View different versions of a page
- Return to the content area history

Quick Start Guide: Monitoring Participation

By reviewing participation, you can access student contributions to a wiki by total pages saved and by total lines modified. You can also see change history for any page and compare versions of the pages.

Navigation:

1. Enter a course.
2. Click the **Control Panel** link.
3. Click the **Assess Wikis** link.

Steps:**Selecting Participant Detail and Change History**

1. Click the **View Participation** button for a wiki.
2. Select the **View Detail** button for a participant.
3. Select the **See Change History** button for a page to review the revision history.
4. Select the **View Diff** button for a version of the page.
5. To view a previous version, click the **Prev Diff** button if applicable.
6. To view a newer version, click the **Next Diff** button if applicable.

Returning to Content Area History

1. Click the **Back Up** button to return to the page history.
2. Click the **Go Back** button to return the student participation detail page.
3. Click the **Go Back** button to return the members participation page.
